Equipment

- Sewing thread
- Garment with unfinished hemline

Machines and accessories

- eXcellence 720PRO
- Standard foot A

Rolled hemline is a perfect method to create a clean and durable hemline on lightweight and medium weight fabrics. Ideal way to finish hemlines for blouses, dresses and skirts. Quick to make and beginner-friendly.

Instructions

Outside view

Inside view

1. Fold the edge of the fabric to the wrong side of the fabric, approx. 5 mm from the edge. Do not use any pins - you will be folding the edge by hand while sewing. pin on your machine.

2. With standard sewing machine foot on, set machine to straight stitch and start sewing as close to the folded edge as possible.

3. To reduce the bulk, trim the excess fabric, leaving about 2-3mm seam allowance.

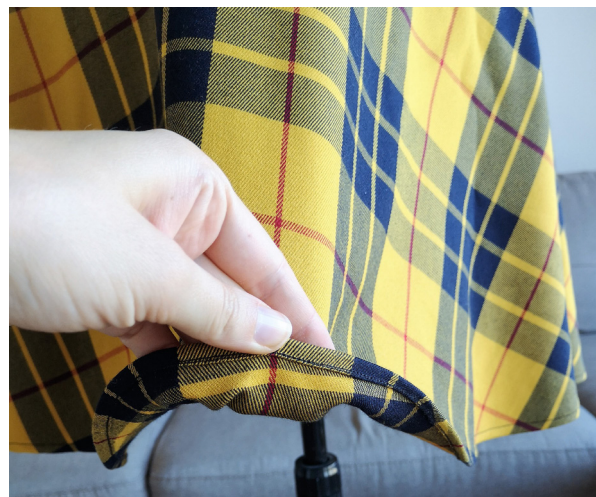

4. Fold the hemline again and sew one more seam, on top of the first seam.

5. Carefully iron the hemline and you are done!
